

How to Edit Schedule Views

The screenshot shows the Flight Circle user interface. At the top, there is a dark navigation bar with the Flight Circle logo, a 'Schedule' link, a 'Messages' notification with a red badge showing '3', and a user profile for 'John Doe' with an 'Online' status indicator. On the left side, there is a vertical menu with options: 'Account History', 'User Account', 'Personal Information', 'My Associations', 'Schedule Settings' (highlighted in blue), 'Notifications', and 'Social Profile'. The main content area has a breadcrumb trail 'Settings / Schedule Settings' and a title 'Schedule Settings'. Below the title, there are two dropdown menus: 'Default view' and 'Default mobile view', both currently set to 'Month View'. A 'Save' button is located below these dropdowns.

1. Go to “Schedule Settings”
2. Edit default view, and default mobile view.
3. Click “Save.”
